**Subject:** Good Luck in your election

Good luck in your election for District Attorney.

I was born and raised in San Jose and went to college at Santa Clara University and Hastings College of the Law and I am now a prosecutor in New Mexico and have been for the last 8 years. As a prosecutor, our main goal is to seek justice and not win at any costs, and I know that having you elected as District Attorney, honor and respect will return to the District Attorney's office. I still follow closely the news and events in San Jose and I frequently travel back to visit family and friends, and I was astonished to see how the District Attorney's office was damaged through the news articles published in the San Jose Mercury News. I believe that it is time for a change for the better and that you will work to making the District Attorney's office once more the best DA's office in the state. You will receive shortly in the Mail my contribution to your campaign and once again good luck in November.

Sincerely,  
Jacinto Palomino  
Deputy District Attorney.
